

Corlette Liveability Index 2020

In September 2020 we teamed up with Place Score to complete our first ever place census. Over 3,700 people told us what they value and how they rate their neighbourhood.

The results allows us to focus on the things most valuable to our community. It helps us plan and make decisions that will have the biggest impact on your wellbeing.

Age

Liveability is simply what a place is like to live in — a liveable place is a healthy place.

Liveability is influenced by safety, the natural environment, infrastructure, accessibility, things to do, attractiveness and inclusivity.

National Average

OUR TOP 5 CORLETTE VALUES

These are the things most important to Corlette residents in their ideal neighbourhood:

Elements of natural environment (natural features, views, vegetation, topography, water, wildlife) — 78%

General condition of public open space (street trees, footpaths, parks) — 61%

Walking/jogging/bike paths that connect housing to communal amenity (shops, parks) — 59%

Protection of the natural environment — 54%

Sense of neighbourhood safety (from crime, traffic, pollution) — 54%

In Corlette your ideal neighbourhood has:

- easy to access shared community amenities, like the local shops, on foot or bike
- locally owned and operated businesses that provide the community with their daily needs
- well maintained and managed public domain; footpaths, parks, roads and other public assets

OUR STRENGTHS

These are the things you care about most and say are performing well. We must continue to celebrate and protect these.

Local businesses that provide for daily needs (grocery stores, pharmacy and banks)

Sense of personal safety (for all ages, genders day or night)

Access to neighbourhood amenities (cafes, shops, health and wellness services)

Elements of natural environment (natural features, views, vegetation, topography, water, wildlife)

Sense of neighbourhood safety (from crime, traffic, pollution)

OUR LIVEABILITY PRIORITIES

These are the things most important to you and are underperforming. We must work to improve these.

Protection of the natural environment

General condition of public open space (street trees, footpaths, parks)

Locally owned and operated businesses

Walking/jogging/bike paths that connect housing to communal amenity (shops, parks)

Access and safety of walking, cycling and/or public transport (signage, paths, lighting)

Evidence of recent public investment (roads, parks, schools)

Sustainable urban design (water sensitive design, transport-oriented design, sustainable building design, density)

Things to do in the evening (bars, dining, cinema, live music)

Quality of public space (footpaths, verges, parks)

Evidence of Council/government management (signage, street cleaners)

Local employment opportunities (within easy commute)

Sustainable behaviours in the community (water management, solar panels, recycling)

Landscaping and natural elements (street trees, planting, water features etc)
