

# Placemaking in Karuah

2022 year in review

## The Karuah Place Plan

The Karuah Place Plan (KPP) has changed the way Council and community work together, to increase liveability and wellbeing. Place plans put people and places first, and take a collaborative approach to delivering actions that create great places, empowering businesses, landowners and residents to work together to deliver a shared vision.

During 2022, Karuah's community initiated and completed 15 volunteer led actions. By implementing these community-led projects, the Karuah community is seeing the benefits of collaborating to enhance their place, promote wellbeing and increase liveability.
