

FILE NO: PSC2009-02488

TITLE: PROCUREMENT POLICY

POLICY OWNER: FINANCIAL SERVICES SECTION MANAGER

1. PURPOSE:

- 1.1 The purpose of this policy is to state Council's position on procurement matters and to provide clear direction to Council officials (Councillors, staff and delegates of Council) making procurement decisions.
- 1.2 Environmentally sustainable procurement results in minimisation of unnecessary purchasing, waste minimisation, water and energy saving, pollution minimisation, avoidance of toxic chemicals, reduction in greenhouse gases and decision making that incorporates biodiversity and conservation objectives.

2. CONTEXT/BACKGROUND:

- 2.1 Council procurement is required to achieve best value for money in the expenditure of public funds while being ethical, ecologically sustainable, transparent, accountable and promoting fairness and competition. This policy prescribes Council's approach to procurement and is supported by the Procurement Management Directive.

3. SCOPE:

- 3.1 This policy has been written considering the following principles:
 - a) All parties engaged in procurement activities will display high standards of behaviour and ethics.
 - b) Procurement activities aim to be efficient, effective and balance risk and total cost.
 - c) Due economy shall be exercised in all purchasing decisions.
 - d) Purchasing decisions shall consider relevant evaluation criteria including environmental sustainability, support of local suppliers, registered disability employers and Australian made goods.
 - e) Parties will conduct all procurement and business relationships with fairness and honesty.
 - f) The process for awarding contracts on government projects will be open, clear and defensible.
 - g) A party with a potential conflict of interest will declare and address that interest as soon as the conflict is known to that party.
 - h) Parties shall comply with all legal obligations.
 - i) Parties shall not engage in practices that are anti-competitive.

- j) Parties shall not engage in practices that aim to give a party an improper advantage over another.
- k) Parties shall not seek or submit tenders without a firm intention and capacity to proceed with a contract.
- l) Parties will maintain business relationships based on open and effective communication, respect and trust and adopt a non-adversarial approach to dispute resolution.

4. DEFINITIONS:

4.1 An outline of the key definitions of terms included in the policy.

Procurement	The act of obtaining or buying goods and services. The process includes preparation and processing of a demand as well as the end receipt and approval of payment.
Local Supplier	A business or contractor employing full-time staff permanently operating from established premises within the Port Stephens local government area for not less than 6 months prior to the procurement or tender being initiated.

5. POLICY STATEMENT:

5.1 Standards of behaviour

- 5.1.1 Council has adopted a Statement of Business Ethics Policy that sets out the high ethical standard expected of Council officials, contractors and business associates. In addition to this, the following statements are made in relation to procurement:
 - a) Council processes shall be fully documented and defensible.
 - b) Council will treat all potential tenderers consistently.
 - c) All parties shall comply with the rule of law and avoid practices that are anti-competitive or collusive.
 - d) Council will not engage in practices that give one party improper advantage over another outside its local and Australian made preference and registered disability employer preference policies.
 - e) Council will not invite or submit tenders without a firm intention and capacity to proceed.
 - f) Parties shall maintain open, effective communication, respect and trust and adopt a non-adversarial approach to dispute resolution.
 - g) Staff involved in procurement of goods and services shall make themselves aware of and comply with all relevant policies, management directives and procedures. Related policies and management directives are listed at the end of this document.

5.2 Environmental sustainability

- 5.2.1 Council is committed to "properly manage, develop, protect, restore, enhance and conserve the environment of the area for which it is responsible, in a manner that is consistent with and promotes the principles of ecologically sustainable development" as per the Local Government Act 1993 (NSW) (the Act). The principles of ecologically sustainable development (ESD) are defined in the Act as the "effective integration of economic and environmental considerations in decision making processes". Prior to purchasing supplies staff must consider whether the purchase is necessary or whether it is possible to use or re-use existing resources including sharing with other sections.

Requisitioning Officers must consider the environmental impact associated with the manufacture, use and disposal of proposed supplies, eg. sustainability of raw materials, energy used, pollution, recyclability or biodegradability. Council is committed to effective implementation for the following principles of ESD in procurement decision making; the precautionary principle; intergenerational equity; conservation of biological diversity and ecological integrity; and improved valuation, pricing and incentive mechanisms.

5.3 Local preference

- 5.3.1 Best value for money does not always mean lowest price. Council functions contribute to the economic success of the Local Government Area and Council expends considerable amounts annually on local economic development. Council prefers to buy from local suppliers and contractors where possible as this supports Council's local economic development initiatives. Where it is cost effective to do so (that is, within the annual rate peg factor for the year), staff must purchase from local suppliers with all other criteria being equal.

5.4 Preference for Australian made products

- 5.4.1 Council prefers to buy goods made in Australia and encourages a culture of "buy Australian" in Council officials when evaluating the merits of purchases. Where it is cost effective to do so staff must purchase Australian made/origin low value supplies.

5.5 Preference for registered disability employers

- 5.5.1 Council prefers to buy products made by registered disability enterprises and encourages such consideration in the evaluation of purchases. Where it is cost effective to do so, staff are encouraged to buy from registered disability employers.

5.6 Purchase orders

5.6.1 Council will always issue a purchase order number for approved purchases. This is to be obtained by entering an online requisition into the Authority software. An online requisition must be entered before supplies are ordered. Suppliers are expected to cooperate by quoting the purchase order number on invoices. Council will not pay invoices where an approved purchase order number is absent. Council staff must refer to the Procurement Management Directive to ensure due process regarding purchases is followed.

5.7 Asset disposal

5.7.1 Council will dispose of surplus plant, vehicles, stores, materials, equipment, furniture, scrap metal, technology and other items in a competitive, transparent, cost effective and environmentally sustainable manner.

6. POLICY RESPONSIBILITIES:

- 6.1 Section Managers generally.
- 6.2 Procurement and Contract Management Specialist.
- 6.3 Financial Acquisitions Coordinator.

7. RELATED DOCUMENTS:

- 7.1 Local Government Act 1993 (NSW).
- 7.2 Local Government (General) Regulation 2021.
- 7.3 Competition and Consumer Act 2010 (Cth).
- 7.4 NSW Government Procurement Code of Practice.
- 7.5 NSW Government Procurement Policy Framework.
- 7.6 NSW Government Sustainability Policy.
- 7.7 Port Stephens Council Code of Conduct.
- 7.8 Procurement Management Directive.
